Hamza El essawy

Founder @ Antler| Navigating AI and Computer Vision | Product Delivery | Building No Code AI platform
WP. Kuala Lumpur, Federal Territory of Kuala Lumpur, Malaysia

Summary

I am a senior product manager at Tapway, where I develop a no-code AI-based platform for computer vision. I have a BS in Information Technology and Computing from The Open University.

With over five years of experience in product management, I have led and contributed to multiple projects in various domains, such as fintech, education, social impact, and credit scoring. I have a strong background in agile software development, process improvement, and agile project management. I am passionate about creating innovative, impactful solutions that solve real-world problems and enhance user experience.

Experience

Stealth AI Startup
Product Consultant
June 2024 - Present (8 months)
Helping AI startups build products from zero to one

AI Tinkerers
Kuala Lumpur Chapter Co-Director
August 2024 - Present (6 months)
Federal Territory of Kuala Lumpur, Malaysia

AI Tinkerers is a meetup designed exclusively for practitioners with technical, machine learning, and entrepreneurial backgrounds who are actively building and working with foundation models, such as large language models (LLMs) and generative AI.

Tapway

DXC Technology

Product Owner

December 2021 - April 2023 (1 year 5 months)

United Kingdom

As a Product Owner at DXC Technology, I successfully led three Scrum squads in the remote development of innovative web and mobile applications, markedly enhancing user satisfaction and reducing development timelines. My oversight in the web and mobile ecosystems was instrumental in the substantial improvement of feature adoption and revenue growth. This role involved collaborating with global teams, fostering a culture of innovation, and driving product evolution in a dynamic technological landscape.

Skip pay

Founder

October 2021 - August 2022 (11 months)

Egypt

Day-to-day contactless payment. spend, save, and control your finance in Egypt, Libya, Iraq

As the Founder and CEO of a fintech startup, I guided the company through an incubation program and successfully launched a beta app on the Google Play Store. My collaboration with UI/UX teams and conducting over 300 customer interviews were crucial in product discovery.
